SASSOT Sports Club Accreditation Funding Scheme

What is it?

SASSOT want to develop welcoming, accessible and accredited sports clubs in partnership with National Governing Bodies of Sport and we want to ensure there is an extensive network of vibrant community sports clubs offering high quality sporting opportunities for young people.

The focus of this funding is to increase the number of sports clubs being accredited or re-accredited with Clubmark or NGB Accreditation.

The funding is available to all sports clubs who require financial assistance to achieve and pass the accreditation criteria. The maximum grant that can be applied for per sports club is £500.

How do I find out more?

Accredited Club Database

What is it?

SASSOT have a website-based Clubmark / NGB accredited club database linked to mapping software which is updated quarterly with NGBs.

As a CSP we need to know which clubs are Clubmark / NGB accredited so that;

- > We can include them on our online club database www.sportacrossstaffordshire.co.uk
- > We can champion and promote these clubs to the general public
- > We can advise the clubs on benefits and funding streams
- > We can provide this data to our partners (including Local Authorities and School Sport Partnerships), who need to know these clubs when working on projects such as Step into Sport, Club-links, Sport Unlimited etc
