

Funding Advice

What advice can I get?

There is a funding section on the SASSOT website which identifies high quality and up to date local, regional and national funding streams and grant aid organisations. SASSOT can also provide a grants database search on GRANTfinder, which has in excess of 6,000 funding opportunities.

SASSOT can support partners and sports clubs with funding applications by identifying how to evidence need and build a strategic case for sport by providing Sport England Active People and market segmentation data and advising with project outputs and KPIs.

SASSOT can also support clubs to register with HMRC as a Community Amateur Sport Club and benefit from a range of tax relief.

How do I find out more?

Visit the funding section on the SASSOT website:
