

National Governing Bodies

Engagement and Support

What is it?

SASSOT, like all County Sports Partnerships, receives funding from Sport England to provide support for National Governing Bodies of Sport (NGBs). Sport England has identified 46 priority sports, and each of these NGBs has produced a Development Plan running from 2009-2013.

SASSOT meets with these NGBs on an annual basis to compile a Core Services Agreement which outlines what support we will offer to each sport to help them deliver their 2009-2013 plans locally. The work areas and projects outlined in the rest of this information leaflet illustrate some of this support. We also ensure that NGBs are able to fully engage with local networks and partner organisations where appropriate.

Workforce Development

Coach Scholarship Scheme

What is it?

SASSOT is able to offer financial support to its partners to help train and develop more coaches.

The focus of this funding is to train Level One and Two coaches who either work as a coach or reside in the Staffordshire and Stoke-on-Trent sub-region. SASSOT can fund up to 50% or £200 per qualification whichever is lowest.
